

John Beigbeder – Operations Manager, Bentley University

As Operations Manager, I oversee the food service operations on campus. Before coming to Bentley, I have held management positions in the Food/Restaurant industry for many years. I've managed at the Museum of Science, Legal Seafoods, Marché, and other national restaurant chains in addition to operating my own restaurants. I look forward to seeing you at any of Bentley's food service locations. If you have any questions or requests please don't hesitate to contact us – We welcome challenges.
